Carton Style -----

Size (L X W X H) -----

(The first two dimensions are always the size of the opening of the pack.)

Product being packed -----

Approx. weight of product being packed -----

Material:	White	<input type="checkbox"/>	Solidboard	<input type="checkbox"/>	Thickness	<input type="checkbox"/>
	Brown	<input type="checkbox"/>	Corrugated	<input type="checkbox"/>	Grammage	<input type="checkbox"/>
			Microflute	<input type="checkbox"/>		

If you don't have a specific material in mind leave this blank and, as long as you can tell us what product is being packed and its approximate weight, we will quote on what we feel is an appropriate spec..

Printed	<input type="checkbox"/>	-----	Number of Colours	<input type="checkbox"/>
Plain	<input type="checkbox"/>		Varnished (v) (uv)	<input type="checkbox"/>

If you specify printed but don't know how many colours the design will be, we will quote based on 4-colour process.

Quantity – Annual Requirement	<input type="text"/>
– Making Quantity	<input type="text"/>

For bespoke cartons the cost of setting all of the machines needed to make a carton means that price is highly quantity sensitive. We will do anything for money but the price of small runs of less than 500 will startle you. We make plenty of packs in runs of 1,000 to 5,000. Prices reach more optimum levels for 20,000 runs and above.
